Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement filed Jul. 12, 2006 fails to comply with the provisions of 37 CFR 1.97, 1.98 and MPEP § 609 because The IDS should be filed in 1449 PTO form. It has been placed in the application file, but the information referred to therein has not been considered as to the merits. Applicant is advised that the date of any re-submission of any item of information contained in this information disclosure statement or the submission of any missing element(s) will be the date of submission for purposes of determining compliance with the requirements based on the time of filing the statement, including all certification requirements for statements under 37 CFR 1.97(e). See MPEP § 609.05(a).

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1-12 are rejected under 35 U.S.C. 102(e) as being anticipated by Herrod et al. (2003/0181168).

4. The information disclosure statement filed Jul. 12, 2006 fails to comply with the provisions of 37 CFR 1.97, 1.98 and MPEP § 609 because The IDS should be filed on 1449 PTO form. It has been placed in the application file, but the information referred to therein has not been considered as to the merits. Applicant is advised that the date of any re-submission of any item of information contained in this information disclosure statement or the submission of any missing element(s) will be the date of submission for purposes of determining compliance with the requirements based on the time of filing the statement, including all certification requirements for statements under 37 CFR 1.97(e). See MPEP § 609.05(a).

Regarding claims 1-2, 5-10, Herrod discloses a terminal with optical reader for locating products in a retail establishment, comprising:

providing a portable device storing data representing locations within a research area relevant to the market research (see fig.5, element 10, fig.8b, elements 82, 110, 112, and its description);

inputting transmitter location data in the portable device representing selected locations of the wireless transmitters relative to the research area (see fig.8a-b, element 92, and its description); and

associating data representing each wireless transmitter with respective transmitter location data in the portable device (see fig.8a-b, element 132 and its description).

Regarding claim 3, Herrod discloses a terminal with optical reader for locating products in a retail establishment, comprising: a portable device storing location data

representing locations within a research area relevant to the market research(see fig.5, element 10, fig.8b, elements 82, 110, 112, and its description); and a processor within the portable device operative to associate the location data with data representing respective wireless transmitters positioned at the locations (see fig.8b, and its description).

Regarding claims 4, 11-12, Herrod further discloses an interactive display coupled with the processor, the processor being operative to control the interactive display to display a layout map representing the research area, the system further comprising a user interface coupled with the processor to input transmitter data representing a wireless transmitter, the processor being operative to control the interactive display to display transmitter-representative data representing the wireless display on the layout map, the interactive display being operative to receive data representing repositioning of the transmitter-representative data on the layout map by a user and providing the location data, the interactive display being operative to supply the location data to the processor (see fig.8b, element 82, 110, 112 and its description). Any inquiry concerning this communication or earlier communications from the examiner should be directed to CongVan Tran whose telephone number is 571-272-7871.
